

10-04-2009

Dear Trainers,

A Huge thank you for the great gift of your immense service in the awakening of Italy at our very first Journey Intensive, in Sansepolcro last weekend.

It was a privilege and great joy to be in your presence. I watched in awe as you danced lightly, opened widely and served so Gracefully.

As you may remember our theme last weekend was TRUST and I was awed by the power of This, time and time again as we all opened, prayed and trusted. 'No one' showed up as we danced together and as such a small team, served 154 delegates in their awakening. What divine perfection in motion.

So much gratitude. I look forward to seeing you again, hopefully very soon.

All love, blessings and the deepest Namaste,

Debs & The Journey Team Italia

PS. Thank you all from the deepest bottom of our hearts. Without you, this first event in Italy wouldn't have been so gracefully done. You WERE the event, we danced all together in the thirst for healing and truth and made such a scintillating start for the Journey to be in this beautiful country... tears are still coming to our eyes even thinking about it.

Thank you for being the pioneers, the most effective trainers with roller skates, the shining sun of love coming through you. And see you again in Milan!

In all love

Ariane & Edwin
